BROCHURE
E-school Management System

Caloris Planitia Technologies is proud to introduce its E-School Management System to you.

E-School Management System is a comprehensive web-based School Management Software. It is designed for better interaction between students, teachers, parents & management. This management software very gracefully handles all the requirements for easy school management.

The software being web based can be accessed from anywhere in the world, which enables the students, teachers, parents & the management be in touch with each other at all times.

For more details please visit:

Please note that this software has been developed exclusively for simplifying school management procedures. Considering large demand from various school managers this work was undertaken.

The last years have seen fundamental changes taking place in education. A rapid development and versatile use of the Web requires appropriate means for presenting both school management process and learning process. Here, an approach to atomize academic administration and the learning process is illustrated by the scalable and efficient platform, highly optimized for the use at schools and universities.

If you have any queries please contact us via info@calorisplanitia.com or call us at 91-9450344502,91-9935898999
E-school Management System

The school management software has following sections.

- Student/Parents
- Teachers/Class teachers
- Admin/Principal/Data Entry

Main Features:
- View/Take Attendance
- Report Cards Section
- Online Fee details
- School time-table
- Assignments
- Homework
- Tutorials
- Exam Schedule
- Student/Teachers Profile
- School Bus details
- Online leave application
- Holidays List
- Buy books/apparels online
- Discussion Forum/Message Board
- Internal Messaging System
- School/Class Notices
- School Dress Kits

All the above features and much more..., you can explore the software yourself

Suggestions, customizations, updating, addition of new modules can be done on request.

Customization to the existing software can be done on demand

E-school Management System

The parents of students are very busy now a days, this school management system helps the parents monitor their children from anywhere. They can check their children's academic performance from a remote location. They can also deposit the school fees, bus fees etc., using online secured payment integrated with this application (online payment available with pro version).

Using this school management system the users can see the students class attendance in various formats, day-wise, monthly attendance, session or total attendance.

Marks or report card can be viewed or added.

Assignment's & homework's can be viewed or posted using this application.

Online leave applications can also be filed by students which gets viewed when the teachers take the daily attendance.

Books, apparels & other essential items can be bought online using the online shopping cart included with the school management system (online purchasing available in pro version).

School and class notices can also be posted using this application.
The School Management System also has a built in forum which develops an online student teacher community over the net, sharing each others ideas.

E-school Management System

MAIN FEATURES OF THE SYSTEM

Notices:
School Notices can be posted by the admin, which can be for whole school or class specific, visible only to students or class teachers of that specific class. It acts like the school-notice-board.

Attendance:
Students can view their attendance; parents can also watch their children’s attendance from home.
Class-teachers / data-entry operators can add-students (class-wise) attendance.
While taking the attendance the students leave application is visible if any leave is filed online by the student.
Detailed Reports on students/class/school attendance.
