E-SCHOOL MANAGEMENT SYSTEM **A web based interactive Application for students, teachers, parents & admin**

Caloris Planitia Technologies is proud to introduce its E-School Management System to you. E-School Management System is a comprehensive web-based School Management Software. It is designed for better interaction between students, teachers, parents & management. This management software very gracefully handles all the requirements for easy school management.

**A UNIQUE APPROACH...WE KNOW
NO TWO SCHOOLS ARE ALIKE.**

We customize our application for each school based on their unique requirements.

The development Ladder

Please note that this software has been developed exclusively for simplifying school management procedures. Considering large demand from various school managers this work was undertaken.

Changing Education

The last years have seen fundamental changes taking place in education. A rapid development and versatile use of the Web requires appropriate means for presenting both school management process and learning process. Here, an approach to atomize academic administration and the learning process is illustrated by the scalable and efficient platform, highly optimized for the use at schools and universities.

VARIOUS PORTALS OF THE SYSTEM

ADMIN PORTAL

The school administrator's uses this portal to manage the school.

TEACHERS PORTAL

Teachers can access this portal to perform various teaching related activities.

STUDENTS PORTAL

This portal is being accessed by students.

PARENTS PORTAL

Parents of the students access this portal to view their children's details, performance and to communicate with the school.

SUPERADMIN PORTAL

This super admin portal is used to manage multiple schools.

Multiple Schools

This system can handle multiple schools through single system(database).

Multiple School Sessions

This system can handle multiple schools sessions through single system(database).

Multiple Children's for parents

The parents can access details of multiple children even in different schools through a single login.

School website CMS

School administrators can create and manage contents on their school website without any knowledge of programming.

**WE HAVE HELPED MORE THAN 100 SMALL AND MEDIUM-SIZED SCHOOLS TO STAY AHEAD OF THE COMPETITION
BY OPTIMIZING VARIOUS SCHOOL MANAGEMENT PROCEDURES & IMPROVING COMMUNICATION.**

IMPROVED COMMUNICATIONS

This School Management Software is designed for better interaction between students, teachers, parents & management.

DATA AVAILABILITY

Being truly web-based the school data can be accessed from anywhere in the world at any time

HIGH SECURITY

High Security of the school data as the data is restricted by various access permissions. The communication between the users is encrypted

Right School Management Software can provide a great relief to the district superintendents, principals, teachers, students, and parents to enhance their performance exponentially. Our Enterprise School Management (ESM) is the only School Management, which is first truly Enterprise and Online System in the globe.

ESM has been developed by the teachers and for the teachers, in order to ease their day to day activities. It also provides greater visibility of all the functions, such as grading and attendance, and evaluation of reports at any point of the school year. At present, attendance, grading, lesson planning and other key activities are very tedious and time consuming and need to be done repetitively.

Only true Online Enterprise School Management (ESM) system which has all the possible functionalities to develop Strategy, tactical and Operational activities for key Stake holders from Enterprise level to local level.

Complete online access to all possible stakeholders (i.e. student, teacher, parent, administrator, etc).

Access to ESM from anywhere, at anytime, and through any infrastructure (Mac or Windows or any operating systems).

One database fully integrated with all possible functions within the complete Enterprise school system.

Parents can track all of their childrens' activities including attendance, grading, special clubs, and achievement.

Online integration of academic and social calendars among the stakeholders (i.e. teacher, student, parent, administrator etc.)

Full customization to suit the needs of each school.

Multiple Schools and Multiple Session Management through single database. Extensive customizable alert messages for all stakeholders

E-SCHOOL MANAGEMENT SYSTEM A web based interactive Application for students, teachers, parents & admin

The School Management System package comprises of the following:

- 1. School Website with Content Management System (CMS)

ALERTS MONITOR

Administrators are given the power to setup events and reminders that will trigger the alert messages. Alert messages can be sent to stakeholders via the following modules:

- Grading
 - Attendance
 - Discipline
- These messages can also be limited by administrators; they possess the power to decide which stakeholders will receive an alert.

WE HAVE HELPED MORE THAN 100 SMALL AND MEDIUM-SIZED SCHOOLS TO STAY AHEAD OF THE COMPETITION BY OPTIMIZING VARIOUS SCHOOL MANAGEMENT PROCEDURES & IMPROVING COMMUNICATION.

IMPROVED COMMUNICATIONS

This School Management Software is designed for better interaction between students, teachers, parents & management.

DATA AVAILABILITY

Being truly web-based the school data can be accessed from anywhere in the world at any time.

HIGH SECURITY

High Security of the school data as the data is restricted by various access permissions. The communication between the users is encrypted.
